COPELAND RESIGNS.

School of Mines Again Without a Director.

As announced briefly in last week's Miner, Professor Durward Copeland has resigned as Director of the School of Mines and Metallurgy, to which position he was appointed Dec. 28, 1914. His resignation was accepted by the Board of Curators of the University of Missouri which met at Columbia April 8.

Needless to say, the resignation of Professor Copeland came as a great surprise to every one. The choice of him as Director had been a popular one. Faculty, students and townspeople had pledged their support and co-operation. Under Copeland's directorship the School of Mines, strengthened by new powers granted by the recent Legislature, never had brighter prospects.

At a mass meeting Wednesday morning Professor Copeland assured the students that he had found school and town conditions very pleasant, and that in no way had local conditions been responsible for his resignation. He assured them that his act would in no way influence his interest in the School of Mines, for which he would always have a deep regard. In resigning as Director he does not sever his connection with the institution, but still retains his position as Professor of Metallurgy and Ore Dressing.

Professor Copeland expects to leave Rolla within the next two weeks. After visiting at his home in Chelsea,

MINERS DROP TWO GAMES.

Arkansas University Wins Both Games of Series 8-4 and 12-2.

The Miners opened the 1915 baseball season at Fayetteville, Arkansas, last Monday and Tuesday in a two-game series with the University of Arkansas. The Miners were defeated in both games, the scores being 8-4 and 12-2.

The Miners were handicapped by the fact that it was their first games. Two games were to have been played with Drury but the Panthers cancelled these; another game with Newburg was called off because of rain. The line-up was more or less an experiment as there had been no chance to find the right combination.

In the first game Keeling pitched for the Miners and would have won with better support. Arkansas won the game in the third inning when the Miners' infield went to pieces. The Razorbacks made three hits, which coupled with a base on balls and two errors, netted four runs. Keeling tightened up after the fifth inning and held Arkansas scoreless for the remaining four innings. The Miners made eleven hits, but Baker, the Razorback's pitcher, kept them well scattered and received good support.

The Miner's runs were made by Miller, Keeling and Kamp, the latter getting two. Miller, Keeling and Wilson each got two hits while Mountjoy handled seven chances at third without an error.

In the second game Golick started

INTER-CLUB GAMES.

Fraternities and Clubs Playing For Allison Cup.

Inter-club baseball has been revived at the School of Mines. It is several years since the old Pan Hellenic League ceased to exist. This year inter-club games have been revived and instead of being inter-fraternity affairs now include all the eating clubs. A schedule has been arranged between the four fraternities and the six eating clubs.

Allison the Jeweler has presented a beautiful cup which will go to the winner of the series of games. The winners will be allowed to keep it for one year. Any club winning the cup three times may keep it permanently. Varsity men are not allowed to play in the games.

The first game was played Monday when the Muckers defeated the Beanery 24-0. Lyons pitched for the Muckers and received good support. Johnny Doyle and K. V. B. Rossman of the Beanery team deserve honorable mention for their star (?) playing.

Tuesday evening the Kappa Sigmas defeated their old rivals the Sigma Nus 14-6. The game was close until the last inning when the Kappa Sigs got next to Kayser, the Sigma Nu pitcher, and counted six times.

The third game was played Wednesday, the Bonanzas defeating the Grubstakers 13-9. It was a close game filled with thrills and the winner was in doubt until the last.

By their defeats, the Beanery, Sigma Nus and Grubstakers are eliminated from the race. The Cosairs and the Prospectors meet next. The winners of this game then play the Muckers after which the Bonanzas play the winners of this game. The Pi Kappa Alphas play the Kappa Alphas. The winners of this game will play the Kappa Sigmas. The winners of the fraternity division will then play the eating club division for the cup.

THE MISSOURI MINER.

PAY COLLECTION OF FICTION.

At the request of students and citizens of Rolla the library put into operation Saturday, April 10, 1915, a pay collection of fiction, a method of supplying recent novels to readers at a small fee which will in time cover the cost of the books. This is practically the only means of furnishing the newest novels owing to limited library funds. After the books have paid for themselves they will be circulated free.

All persons connected with the School of Mines and responsible citizens have the privilege of drawing books.

Two books may be drawn at a time by each person.

A fee of 2 cents per day for each volume will be charged with a minimum charge of 5 cents.

Atherton, Mrs. G. F., Perch of the Devil.

SOPHOMORE HAPPENINGS.

E. H. Sanquinet, ex-'17, is spending a few days in Rolla. Sang was seriously injured last fall when a steam shovel cut loose and buried him under tons of rock and dirt. We are all pulling for him and sincerely hope that his injuries will not be permanent.

K. V. B. Rossman's talk on "Rural Free Delivery" in Dr. Barley's class of public speaking was enjoyed by some; others fell asleep.

C. Irving Vellner, ex-'17, has taken up a homestead at Ranch 104, Cummings, Cal.

J. G. Wilson is evidently acting as advance agent for the Miner baseball aggregation. He went as far as Lebanon on Saturday joining the team at that point on Sunday night. Details of business transacted are not known.

At the time of going to press nothing had developed in Blair's case but we will endeavor to gather more news for the next issue.

Huber's on the Gasconade.

Spring is here, the river is ideal for canoeing and boating, and fishing is good.

RATES:

Adults, \$1.50 per day, or \$9.00 per week.

Children under twelve years of age, half price.

Large, roomy, comfortable fishing boats can be rented at fifty cents per day, and minnows purchased at seventy-five cents per hundred.

MASS MEETINGS!

A mass meeting in the Missouri School of Mines means a meeting of all the students, of all the faculty, and of all others directly interested or connected with the school.

The purpose of a mass meeting is to present to the students for discussion all subjects which pertain to or concern them in any way. These subjects are varied, and may include anything from "pep" meetings to election of student representatives for the many offices to which the students are eligible. In fact, most any subject may be presented in a mass meeting, and these subjects are always of importance to the student. A mass meeting is never called without a definite purpose, or a definite proposition for presentation.

Whenever there is a mass meeting during school hours, it is called only after the Director and Faculty sanction it, and often it is only after quite a lot of work on the part of a few fellows that this sanction is secured.

Since all matters taken up at mass meetings are of direct interest to the students, every student should attend every meeting, but sometimes only about one-half of us are present. This fact shows a lack of interest, a lack of school spirit, and a lack of good fellowship, or that the student has a wrong impression of the meeting, and, perhaps, thinks it is only an excuse to get out of some class. Every man here is surely interested in the school, or he would not be here, and surely wants to see this school grow. Let's have interest, school spirit and good fellowship.

The school has made another great step in advancement since it has secured the right to confer the additional degrees of Mechanical, Electrical and Chemical Engineering, which is a result of the passing of the Buford Bill.

PERSONALS.

Rollamo Picture Show, Parker Hall, Friday and Saturday nights.

D. E. Adams, of Hamilton, Mo., was the guest of his son, B. W. Adams, '16, several days this week.

The members of the Pipe and Bowl Club entertained informally at the home of Mr. and Mrs. F. E. Taylor Thursday evening.

The students of the Rolla High School will give a play, "Country Folks," at Parker Hall, Tuesday night, April 20.

J. G. Wilson, '17, and J. R. Couch, '17, spent the week end in Lebanon.

Harry Dunavan, ex-'17, has accepted a position with the U. S. Reclamation Service at Phoenix, Ariz.

It has been announced that the Commencement Ball will be given in the new gymnasium, which will soon be completed. A large force of men are at work building the tunnel from the central heating plant to the Gym, thru which all heating pipes and electric light wires will be conveyed.

A. J. Langdon, Jr., ex-'17, of Iron-ton, Mo., is spending a few days at the Sigma Nu House.

D. W. Blaylock, '15, is able to attend classes, after being laid up with a cut foot.

W. W. Kiskaddon, '16, returned Wednesday from a trip to Oklahoma.

K. I. Gannon, '16, is able to be out again after an illness of several days.

Professor Copeland gave an illustrated lecture on his recent trip to South America Wednesday evening. The lecture was held under the auspices of the Missouri Mining Association.

Prof. J. C. Ingram returned Wednesday from St. Louis, where he has been the past week on business for the school.

ALUMNI NOTES.

Ray F. Rucker, '06, Accepts New Position.

R. F. Rucker, '06, has resigned his position as manager of quarries for the Lehigh Portland Cement Co., at Mitchell, Ind., and has accepted the position of assistant superintendent of the large plant of the Aluminium Ore Co., at East St. Louis, Ill. This company controls the entire American aluminium market. Mr. Rucker took up his new duties on April 15.

R. N. McBride, '14.

R. N. McBride, '14, who since graduation has been located at Nespelem, Washington, is now with the Miami Copper Co., Box 100, Miami, Arizona.

M. M. Albertson, '11.

M. M. Albertson, '11, is presenting a thesis for advanced degree. The subject is Mining & Milling at the Seneca, Superior, Cobalt. Mr. Albertson is in the employ of this company.

Home, Sweet Home, January 30, 1915.
My Dear Son:—

I received your letter about that awful fire in Rolla and am so much relieved to know that you escaped with only a few bruises and the loss of your clothes, books, instruments, etc.

Just as soon as you get located, be sure and have B. H. RUCKER write fire insurance to cover everything you have, and if you can spare the amount from your allowance, you ought to take a little life insurance also.

Yours affectionately,
MOTHER.

MASS MEETINGS.

Continued from Fourth Page.

and it is evident that the town people, together with the faculty, are doing all they possibly can to make this school the leading engineering school of the country. They are working in unity. Now, the students must help, too, and lend a hand, and this can be done by attending the mass meetings, and furthering good fellowship. So get together, boys, and attend every meeting, and thereby show you are interested. There is more "pep" shown by attending mass meetings than all the yelling you can do in a day. Let's get together.—Contributed.

for the Miners but was relieved in the fifth by Huff. Again errors by the Miners were responsible for many runs. The Miners were unable to connect with the southpaw shots of the Razor-back pitcher and were forced to be content with the short end of the 12-2 score.

The squad returned early Wednesday. Since then Coach Dennie has been putting them through some stiff work-outs. Several changes have been made in the hopes of getting a winning combination. Kamp is being used at his old position at third while Mountjoy has been shifted to short.

The Miners will probably play Newburg here Saturday afternoon.
